Total Sales	Total Profit	Total Orders	Average Sales	Profit Margin
$12.6M	$1.5M	25,035	$505	11.6%

Year: All | Market: All | Segment: All | Category: All

Key Business Insights

1. Strong, steady growth: sales rose from $2.26M in 2011 to $4.30M in 2014 (+90%) and profit doubled from $249K to $504K, while margin held at 11% to 12%.
2. Three markets carry the business: APAC ($3.59M), EU ($2.94M) and US ($2.30M) deliver 69.8% of sales and 74.6% of profit.
3. Consumers lead with 51.5% of sales ($6.51M), ahead of Corporate (30.3%) and Home Office (18.3%). Margins are almost identical (11.5% to 12.0%), so segments differ in volume, not profitability.
4. Technology is the strongest category: $4.74M sales and $664K profit at a 14.0% margin. Top profit makers are the Canon imageCLASS 2200 copier ($25.2K), Cisco Smart Phone Full Size ($17.2K) and Motorola Smart Phone Full Size ($17.0K).
5. Sales are seasonal: Q4 2014 was the best quarter ($1.48M), and November and December alone bring 24.8% of annual sales.

Recommendations

1. Cap discounts at 20% and require manager approval above it. Orders discounted over 20% lost $815K, while undiscounted orders earned a 25.3% margin.
2. Reprice or renegotiate supplier costs for Tables (-$64K) and review loss-making products such as the Cubify CubeX 3D printers (-$8.9K and -$3.8K).
3. Audit Turkey (-$98K) and Nigeria (-$81K), and set margin targets for Southeast Asia (2.0%) and EMEA (5.4%), covering pricing, discounts and shipping costs.
4. Shift marketing spend to Technology (copiers, phones, accessories) and to high-margin markets such as Canada, North Asia and Central Asia.
5. Build stock and run campaigns from September for the Q4 peak, and launch a loyalty programme for the top 10% of customers, who bring 26.9% of sales.

Business Risks

1. Over-discounting: orders discounted above 20% lost $815K in total (see chart), and 24.5% of all order lines are unprofitable.
2. Loss-making products and countries: Tables lose $64K (-8.5% margin), Furniture earns only 6.9%, and 29 countries are

Business Opportunities

1. High-margin, under-served markets: Canada earns a 26.6% margin on only 0.5% of sales ($67K), and North Asia (19.5%) and Central Asia (17.6%) also beat the 11.6% average.
2. High-margin product lines: Paper (24.2%), Labels (20.4%),
